- Estimated "Time-to-Completion" Display

Talk about capacity. Imagine being able to burn 32 gigabytes of information in one hour. Well now it's possible with the new 5400D DVD-R multi-drive tower from MediaFORM.

Requiring no PC, these sleekly designed standalone DVD-R towers burn at selectable 2X/1X speed. In one hour, the 5400D can produce approximately eight full 4.7 GB DVDs...that's 64 DVDs in an eight hour day.

Plus, the 5400D also offers selectable CD-R functionality at 8X recording speed. So now you can have the best of both worlds - DVD-R/RW and CD-R/RW duplication -in a single system!
